## GDPR Certification Framework for Barristers

The **only barrister-specific Certification recognised by the Bar Standards Boards in its 2020 Regulatory Return** as an appropriate measure of compliance. Briefed's unique Framework for barristers offers an end-to-end compliance solution which **combines innovative tools, online learning, and direct line 24/7 support** from our in-house barrister team.

This independent practice accreditation can be completed at your own pace and convenience during a **12-month period** and results in a barrister-specific security certification which demonstrates to the ICO, BSB, and chambers that effective controls are in place.
